

## Classic framed glow in the dark posters

**Short description:**

Classic framed glow in the dark prints &ndash; exclusive to Prodigi

**Long description:**

Give your wall art the ultimate glow-up with our classic framed glow in the dark posters, available to order exclusively through Prodigi.

Perfect for displaying graphic illustrations, abstract art and typography designs, they serve as a stunning work of art during the day and a glowing masterpiece when the lights go out.

Available to order in our satin-laminated classic frame, complete with a protective Perspex glaze, this specialist substrate is designed so that you can choose precisely where you want the glow in the dark paper to appear in your custom image.

What's more, our advanced print technology puts us in a unique position to provide short print runs without any setup costs, enabling you to order custom glow in the dark art as one-offs or in large quantities, both at scale and at speed. We can also produce prints sized up to a massive 40x40", giving you the flexibility to create and sell these specialist prints without limits.

Our framed glow in the dark posters benefit from a beautifully soft texture and a clean, matte finish. They come in sizes ranging from 6x6" to 40x40" and are delivered ready to hang for speed and convenience.

Read our glow in the dark printing setup guide to prep your files for production.

Please note: Areas defined as white or transparent in your artwork will emit a luminous green-blue glow. To activate glow in the dark elements, artwork should be exposed to 30 minutes of bright or natural light, before being displayed in a completely dark room. The more light charge your glow in the dark prints receive, the brighter they'll glow. Eventually, the glow will begin to fade, indicating that more light charge is needed.
