

## Dibond

**Short description:**

Light, minimalist, dibond prints.

**Long description:**

Dibond is 3mm deep and comprised of a dense polythene core sandwiched between two thin aluminium sheets. It is a lightweight alternative to aluminium and perfectly suited to large format prints.

Dibond mounted prints are a wonderfully minimalist option for displaying your art and photographs.

Each dibond print comes with a hidden subframe hanging system, floating your artwork 15mm from the wall.

Available in a huge range of sizes. Choose from a matte, gloss or satin laminate finish.

**Features:**

Perfect for photographic exhibitions
