

Dibond

Short description:

Lightweight aluminium dibond prints

Long description:

If you're looking for a super lightweight alternative to custom aluminium prints, dibond is an ideal printing substrate that combines low hanging weight, high picture quality and durability.

Aluminium dibond is a composite material. It's 3mm thick with three layers; a black polyethylene core between two platinum white aluminium sheets.

Dibond mounted prints are a perfect contemporary option for displaying your artwork or photographs. We use fine art inks with a Giclée printing method to ensure increased saturation and luminosity.

Our dibond bespoke prints are available in a wide range of sizes. Each print comes with a hidden subframe hanging system, floating your artwork 15mm from the wall.

Features:

- Top grade, robust print with a long lifespan
- Perfect for photographic exhibitions
- Lightweight, strong and minimal
- With a choice of matt, gloss or lustre finish
- Invisible floating subframe with sawtooth and bear claw hanging hardware
- Nail or screw (with subframe) or your own fixing (without hanger)
- Fire-rated: NFP 92-501: M1

Wholesale price:

From £21.00

SKU prefix:

MOU-DI

Manufacturing time:

72h

Manufacturing locations:

 UK  US  EU
