

Eco rolled canvas

Short description:

Custom canvas prints made from recycled materials

Long description:

Made from the exact same material as our popular eco canvas, which is produced entirely from recycled plastic bottles, our eco-friendly rolled canvas is ideal for those wanting to frame or stretch their own custom canvas prints.

Part of our eco collection, these rolled canvas prints are available to order in sizes ranging from 4x6" through to 43x87" and have a luxe-textured satin finish for a premium print quality.

We recreate your designs using our 12-colour Giclée printing process to give your canvas art prints long-lasting vibrancy, depth and richness. Once printed, your finished print is dispatched in a double-walled square tube for added protection while in transit.

Features:
