

## Framed glow in the dark posters

**Short description:** Framed glow in the dark art prints &ndash; exclusive to Prodigi

**Long description:** Your wall art range just got an upgrade. Give your designs the ultimate glow-up with our glow in the dark paper. Unique to the print on demand space, these glow in the dark posters are available to order exclusively through Prodigi.

A softly textured substrate with a clean, matte finish, each print comes in a hand-finished frame made from sustainably sourced wood and is perfect for displaying graphic illustrations, abstract art and typography designs.

Our specialist print technology allows you to create your very own glow in the dark wall art, giving you full control over which parts of your design glow. Once printed, we'll hand frame your poster in the frame colour of your choice, before fitting it with a protective Perspex glaze.

We're also uniquely positioned to offer short print runs without incurring any setup costs. This means that you can order custom glow in the dark prints as individual pieces or in large quantities whenever you need them. Our printing capabilities also extend to producing prints up to 40x40", giving you the freedom to create and sell custom glow in the dark prints without any size restrictions.

Our framed glow in the dark art prints come in sizes ranging from 4x6" to 40x40" and are delivered ready to hang for speed and convenience.

Please note: Transparent areas in your artwork will show the paper's glow in the dark background. To activate glow in the dark elements, artwork should be exposed to 30 minutes of bright or natural light, and then displayed in a completely dark room.
