

Slim canvas

Short description: Professional print on demand canvas wall art with a sleek 19mm profile

Long description: Our slim canvas prints offer a clean, understated way to display photography, illustrations and artwork. The slim 19mm depth sits closer to the wall, making them ideal for minimalist interiors, feature walls and everything from large canvas prints to intimate canvas photo prints.

All of our canvas wall art is printed using water-based latex inks with no harsh chemicals or odour. Colours stay vibrant and true for over 200 years in optimum indoor conditions – just keep your canvas away from direct sunlight and dust occasionally with a soft brush.

Each canvas print is stretched over finger-jointed stretcher bars with tensioning wedges, which helps keep the canvas taut over time. The curved profile gives a smooth, polished edge, and installation is simple – just hang on a nail or screw. Larger sizes may include a sawtooth hanger.

After something a little bolder? Check out our 38mm canvas prints for a more prominent, gallery-style look.
