Spacer frames

Short description:	Professional framed prints with black or white spacer panel for depth and dimension
Long description:	Add custom spacer frames to your product range for a premium recessed display effect. These ready-to-hang framed prints combine our bestselling box frame with a Giclée fine art print. A black or white spacer panel extends the depth of the frame, setting the print further back from the glazing to create visual impact and a gallery-quality finish. Each spacer frame features a hand-stained box frame in black, white or natural, Perspex glazing and a recessed back-mounted print. The added space between the print and glazing creates a deeper, more dimensional presentation than a standard framed print. Available in a wide range of sizes across portrait, landscape and square formats, spacer frames are ideal for showcasing fine art, photography and designs that benefit from added depth.
Features:	- Hand-stained box frame in black, white or natural - Spacer panel available in black or white - Includes a Giclée fine art print - Perspex glazing - Recessed back-mounted - Delivered fully assembled - Cobra hook (sizes up to 27.5x39" / 70x100cm) - Sawtooth hanger (sizes above 27.5x39" / 70x100cm)
